### **HABERBERGER COMPLETES THREE PROJECTS IN ST. LOUIS COUNTY**

**St. Louis, Mo., Nov. 15, 2011...** Haberberger, Inc., a St. Louis-based mechanical contracting company, recently completed work on three separate projects in St. Louis County. Hof Construction had Haberberger, Inc. as part of their team to handle the work on the HVAC portion of the new St. Louis County Animal Vector Control Shelter in Florissant, MO. Haberberger, Inc. also completed two separate installation projects at the Metropolitan St. Louis Sewer District (MSD) Grand Glaize plant located in Valley Park, MO.

Haberberger's work on the St. Louis County Animal Vector Control Shelter was part of the larger transformation of a 26,000-square-foot warehouse into the new animal vector control shelter. Haberberger field team members successfully worked with Dan Hof and Tony Perotta of Hof Construction to complete the HVAC installation project in a timely manner.

Work at the MSD Grand Glaize plant took place between April and September as the Haberberger team tackled two separate projects at the facility. In the first project, Haberberger installed a Redundant Washer Compactor at the plant by relocating an existing washer compactor and modifying the piping and electrical for the new equipment. Haberberger's second project at the MSD Grand Glaize plant included the installation of new valves and piping in four different splitter boxes.

*Haberberger, Inc. is a 63-year-old mechanical contracting company that offers complete HVAC installation, customized maintenance programs, design-build services, process piping and piping fabrication, sheet metal services, and refrigeration and energy management services to a variety of industrial and commercial customers.
