## HABERBERGER, INCORPORATED REACHES SAFETY MILESTONE

It is with great pleasure that we announce that Haberberger, Inc. has successfully worked one year without a recordable incident. We thank our crews very much for their hard work and diligence throughout the year.

We stress to our crews that our number one goal is that everyday everyone goes home to their loved ones safe and sound. We credit the accomplishment to the safety training they receive from the Plumbers and Pipefitters Local 562, Sheet Metal Workers Local 36 along with the safety training that Haberberger provides. This past year, Haberberger has made it mandatory that every project fills out a daily JSA (job safety analysis) which we feel has played a role in our accomplishment of working one year without a recordable incident.

We know that we are asked to work in some very challenging environments at times for our customers and that we aim to not just meet, but exceed their expectations. We at Haberberger are very proud of our crews for this great accomplishment.

## HABERBERGER, INC NOW PROVIDES SHEET METAL SERVICES

As of August 1, Haberberger, Inc is now able to provide full service sheet metal capabilities to its customers. Bob Harke, formerly of Harke Heating and Air Conditioning, has joined Haberberger as Sheet Metal Operations Manager.

Haberberger's sheet metal capabilities include HVAC ductwork fabrication and installation, architectural sheet metal, dust collection and bag houses, clean room and hospital ductwork. The fabrication shop has many new technologies including TDC machines and Cybermation plasma cutting.

## HAPPY LABOR DAY

We at Haberberger, Inc. would like to wish you all a safe and happy Labor Day.
